

LeVer

Valuing skills and competencies acquired through non-formal and informal learning experiences such as volunteering, including transversal competences, to increase employability, social responsibility and mobility

- Reaching mutual understanding across Europe by sharing a common transversal competences' validation and certification model
- Releasing an upgrade of the LEVER Validation of Prior Learning (VPL), with a stronger link with the National Qualification Frameworks (NQFs) and with the European ECVET, EDI and EUROPASS
- Building on the pilot phase to create a "full speed" service for transversal competence certification at European level
- Fostering the links between the Volunteering, VET systems and the labour market realities and policies

This project has been funded with support from the European Commission. The publication reflects the views only of the authors and the Commission is not responsible for any use which may be made of the information contained therein.
